

# Too many adults take this approach to their child's internet use

**Speak no evil**

**See no evil**

**Hear no evil**

## **Know the facts\***

75% have accessed the internet from a computer at home

19% have internet access in their bedroom

One third of regular internet users have received unwanted sexual or nasty comments online or by text.

Only 7% of parents are aware that their child has received sexual comments and only 4% that their child has been bullied online.

46% say that they have given out personal information to someone online.

30% have made an online "friend" and 8% say they have met face to face with someone whom they first met online.
