

OUT OF THIS WORLD

Challenge One

Write a poem called 'Space'. Maybe you can present it in a creative way? Perhaps an acrostic, or shape poem?

Challenge Two

Space Maths - maybe make a space game that needs dice. Perhaps write some problems linked to space. Maybe create an alien code.

Challenge Three

Spelling Challenge- write a sentence for each of your spellings from this week. Remember your punctuation.

Challenge Four

Space art and design - produce a piece of art linked to space.

Challenge Five

Create a fact file all about your favourite planet!

Challenge Six

Make a space model. Perhaps a model of the solar system, design and build a rocket, make a model space station... the choice is yours!

Challenge Seven

Write a space diary! Imagine you are the first child to go into space. What might you do each day? What would you see? How would you feel? Or create a space language with symbols. Write a message to earth.

Challenge Eight

Create your own planet. What does it look like? What is there?

Tasks (1 - 3) are compulsory and then you can choose from the remaining tasks, so that you complete a total of 6 tasks.
