School Dog Risk Assessment

Purpose

1. **Dogs teach children responsibility.** Having to remember to feed, provide water and show support for a dog can give children a sense of importance and satisfaction that they can't get from school or other chores. The relationship that develops can be life-changing for a child and a great support system as they themselves continue to grow and develop.
2. **Dogs teach children patience.** Dogs do not always do as they are told first time!
3. **Dogs teach children compassion.** Just like humans, dogs feel emotion and pain. They are prone to injuries and the infirmities of age during their relatively short lives.
4. **Dogs teach children about socialisation.** Like most of us, dogs are social animals who enjoy and need attention and affection. By learning how to interact with a dog, children can learn how to better socialise with other children. If they can learn the social cues of a dog, then interacting with humans who can talk will be a walk in the park (pun intended).
5. **Dogs are fun.** Last, but certainly not least, dogs are a lot of fun. They greet you with a wagging tail every day and can cheer you up even on your worst day.

Many people have studied dogs in attempts to decipher their behaviour, and the theories abound. However, you just have to witness the interactions between dogs and children to realise the potential for greatness. Dogs can sense when children with epilepsy are about to have a seizure, they can sense when a diabetic child's sugar is low, and they can help children with severe physical disabilities find happiness in life. With the proper training and supervision, a dog can enrich a child's life. After all, dogs are basically four-legged children who never grow up!

Introduction

West Borough's school dog Bea has been living with Miss Meakin-Scott since June 2012 when she was just a 10 week old puppy. Bea is a family dog. She has spent many years attending dog training and obedience classes. She is always with Miss Meakin-Scott when she is not at work, and so Bea is very used to being outside doing Forest School with lots of different children and also being on a working farm and with horses. Bea is a very caring and well behaved dog who has the right temperament to become a real asset to West Borough Primary School.

Bea's mother is a Border Collie and her father is a German Shepherd.

Bea is a member of the Dog's Trust which means she has public liability insurance. This means she is able to come into school. Bea regularly visits the vet for check-ups and yearly vaccinations. They also ensure she has the correct worm and flea treatments.

In addition to the 5 key reasons for Bea joining us outlined in the purpose, we also believe she will improve the children's abilities within the schools 5 core values and take our attendance levels to new highs.
