

Challenge One - Science

Write five examples of solids, liquids and gases found in or around your home.

How are they different?

Be creative with how you present your findings.

Challenge Three - Maths- compulsory

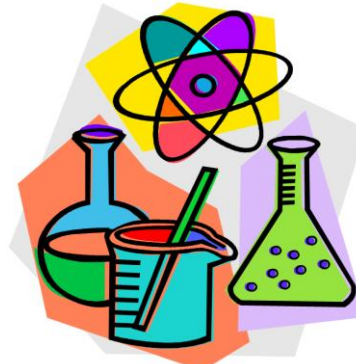

Devise at least six, 2 step word problems using multiplication or division that will challenge the class. You must include some of each.

Remember to include the answers.

Challenge Six Research

Make a fact file for our display about different types of materials.

Mysterious Materials

Challenge Five - PSHCE

.Describe what the class code of conduct is and explain why we have this code in your own way. You may choose to annotate pictures, create a poster, or you may have a better idea, your choice.

Challenge Two - Writing- compulsory
"I couldn't believe my eyes, when I saw what was pouring from the tap!"

Write a story using the above sentence. It could be the opener or used elsewhere.

Challenge four- DT

Make a moving model of the "Iron Man", using various materials, e.g. wood, plastic metal.

Challenge 7 - Geography

We are hearing about litter harming our planet all the time on the news. How do you think we should recycle our rubbish?

Use your ideas to create a poster.

Remember 2 pages for Home Learning! If you create a model you are still expected to complete one page of recording. Home Learning is due in every Monday.
