

Nursery Learning Activities
w/b 28th September 2020
Look what I can do!

At Nursery we are going to be thinking about movements our body can make!

Try drawing large patterns in the air with your finger!

- Zig zags
- Up and down lines
- Swirls
- Circles
- Lines from side to side

And any more you can think of!

Could you try and draw these smaller on some paper? Send pictures to hbirtchnell@west-borough.kent.sch.uk so we can see.

Use Class Dojo or email to show us the fantastic and imaginative games your child is playing at home.

Phonics

Catch me out:

Deliberately say a rhyming word wrong from a familiar rhyme - "Silly Me!"

- Discuss how to fit a rhyming word that fits e.g. make the same mouth shape or hear the same end sound.
- Twinkle, twinkle little car - oops!

Maths

This week we will continue to be looking at the numbers 1-5

Try writing the numbers 1 -5

Ask them to collect you a shopping list of food items you have at home: e.g. 1 tin of beans, 2 bananas, 3 apples

We will continue to be singing lots of songs about the numbers 1-5.

<https://www.bbc.co.uk/programmes/p065z8z4> has lots to sing along with!

We are going to read 'Worrysaurus' in school (Mrs Birtchnell read this on the school's Instagram page if you do not have a copy)
