

## Nursery Learning Activities

w/b 5<sup>th</sup> October 2020

### Patterns!

We are looking forward to taking part in a workshop on Monday - turning vegetables into instruments!

If you are at home, maybe you could make an interesting instrument and play some of your favourite songs or nursery rhymes.

We are also recreating patterns in different ways, tracing, painting and colouring over them.

Can you draw these patterns too?

**Use Class Dojo or email to show us the instruments, pictures, models and games you are playing and making at home.**

### Maths

We are also using the vegetables to practice ordering objects from biggest to smallest - what can you find at home to put in size order?

Can you make a repeating pattern from food?

### Phonics

Get your child to curl up like a Jack in the Box. They can only jump up when they hear their name. When they have exploded they have to stay still (like a statue)

They can make an explosion noise when they pop up.

Sing the song 'open shut them' (use YouTube)

<https://youtu.be/RNUZBHIRH4Y>

Copy the actions and Sing along!

Make up a story using one of toys e.g.

One super sunny Saturday, Percy Penguin decided to go for a walk to the fresh forest. The first thing he saw was ....

A sleepy seal, a beautiful bench, anything!
