## *Record breaking beanstalk baffles Brits*

*It just won't stop growing!!!*

### **Exclusive Report by Old Mother Hubbard**

Gardeners across Maidstone were amazed when a huge beanstalk reaching high into the clouds appeared out of nowhere on Wednesday night, outside the home of Jack Tales, aged 11.

When interviewed, Master Tales denied any knowledge of how the beanstalk got there. Neighbours reported a strange man exchanging beans for Jack's cow, Daisy outside the home late Tuesday night.

Mrs Crittenden, headteacher at a local school exclaimed 'It appeared overnight, it's towering over our school'. Children at the school were excited to see the super stalk.

Police are now wondering what is at the top of the beanstalk and how best to stop it growing before it crashes back to earth. What will happen next? Will Jack spill the beans?
