Phonics Activity

After joining in with today's phonics video, we would like you to look for Tricky Words in books, magazines or in the environment. The Tricky Words that we have learnt so far are;

to, the, go, into, no, I, we, me, we, she

We are also going to practise writing the tricky words or making them with magnetic letters. Ask your grown-up to say one of tricky words for you to write. Check it with you grown-up.

Sing the Tricky Word Song together -

Daily Learning Activity

Today, we would like you to design your own dragon. You might want to create Zog or you could design your own dragon! You can use whatever you want to but we would like it to be made from different 2D shapes if possible. Here are some ideas.

Maths Activity

This week, our maths activities are based around numbers up to 5. It is really important that your child understands the order of the numbers and can count forwards and backwards, including 0. Once you have joined in with the activities on the video, try the following activities together:

Write the numbers from 0-5 onto some pieces of paper or card. Mix them up and turn them over so that your child can't see them! Invite them to turn over a number, one at a time. Can you say the number? Can you show you me the number by using your fingers? Can you say the number that is one more or one less than that number? Can you show the number on a five frame?
