

Maths

Lesson 4

w

Starter

Write a multiplication for each array.

Can you solve it?

$$2 \times 5 = 10$$

$$3 \times 4 = 12$$

$$2 \times 8 = 16$$

$$3 \times 6 = 18$$

Starter

Write the multiplications for these arrays.

Can you solve the calculations?

$$\underline{2} \times \underline{7} = \underline{7} \times \underline{2}$$

Walt: learn the 2 times table

S2S: I can

- count in 2s
- find two more and two less
- recall the two times table

Let's Learn

How many socks?
Can you write it as a multiplication?

3 lots of 2.

$$\underline{3} \times \underline{2} = \underline{6}$$

How many wheels?
Can you write it as a multiplication?

4 lots of 2.

$$\underline{4} \times \underline{2} = \underline{8}$$

How many strawberries?
Can you write it as a multiplication?

5 lots of 2.

$$\underline{5} \times \underline{2} = \underline{10}$$

Guided Practice

Count in 2s to 24.
What do you notice?

1	2	3	4	5	6	7	8	9	10	11	12
13	14	15	16	17	18	19	20	21	22	23	24

**When counting in 2s we skip one number.
All the numbers are even.**

Let's recite the 2 times table.

$1 \times 2 = 2$

$7 \times 2 = 14$

$2 \times 2 = 4$

$8 \times 2 = 16$

$3 \times 2 = 6$

$9 \times 2 = 18$

$4 \times 2 = 8$

$10 \times 2 = 20$

$5 \times 2 = 10$

$11 \times 2 = 22$

$6 \times 2 = 12$

$12 \times 2 = 24$

Problem solving

Hannah has 2p coins in her money box.

She has less than 7 coins

How much money could she have?

$$1 \times 2p = 2p$$

$$2 \times 2p = 4p$$

$$3 \times 2p = 6p$$

$$4 \times 2p = 8p$$

$$5 \times 2p = 10p$$

$$6 \times 2p = 12p$$

Your turn
Questions 1 - 4

Problem Solving

Problem Solving 1

Use the digit cards to complete the calculation.

$$\square \times 2 = \square \square$$

2 6 5 0 1

True or false?
Can you prove it?

$$11 \times 2 = 24$$

False. $11 \times 2 = 22$

Reflection – Traffic Lights

Where did I get to today?

I can now.....

I need more practice with...

I still need to learn how to

 ... count in 2s.

 ...find two more and two less.

 ...recall the 2 times table.
