Phonics Activity

After watching the phonics lesson today, we would like you to watch the Alphablocks episodes about the digraphs 'ai' and 'ee.'

'ai' - <https://www.youtube.com/watch?v=ppb9We6g8BA>

'ee' - <https://www.youtube.com/watch?v=F9oQmsGajmA>

Can you find some things around the house or outside that contain the digraphs 'ai' or 'ee?'

Tell your grown-up what you have found.

Daily Learning Activity

Use the counting sheet below with pictures of parts of the story. Count out how many rats there are and write the numeral. Look at the other pictures and do the same. Which picture is the most / least popular?

Maths Activity

This week, we are focusing on the fact that a number can be made up of smaller numbers. But still only numbers up to 5. Once you have joined in with the activities on the video, try the following activities together:

Draw some 5 frames for your child. Using 2 different colours, ask your child to show different ways that they can make 5, e.g. 3 blue squares and 2 yellow squares, or 4 blue squares and 1 yellow square. How many different ways can they find to make 5?
