*array*

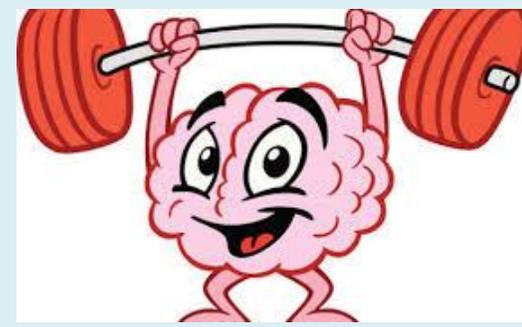

*dividing*

# Maths Star words

---

# Starter – Let's warm up our brains

Use the pictures to complete the calculations.

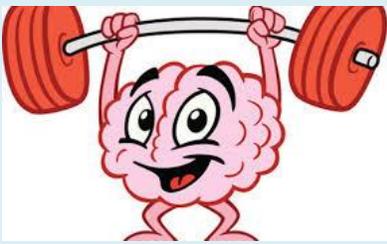

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \div \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

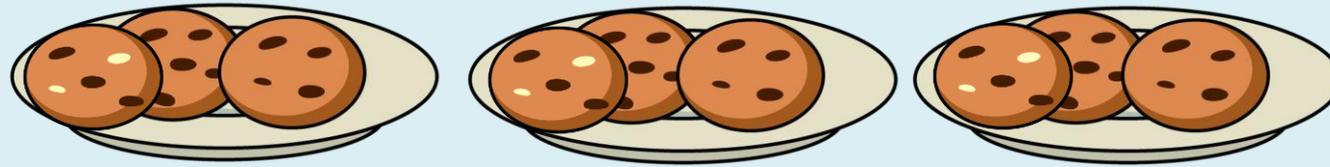

$$\underline{\quad} \div \underline{\quad} = \underline{\quad}$$

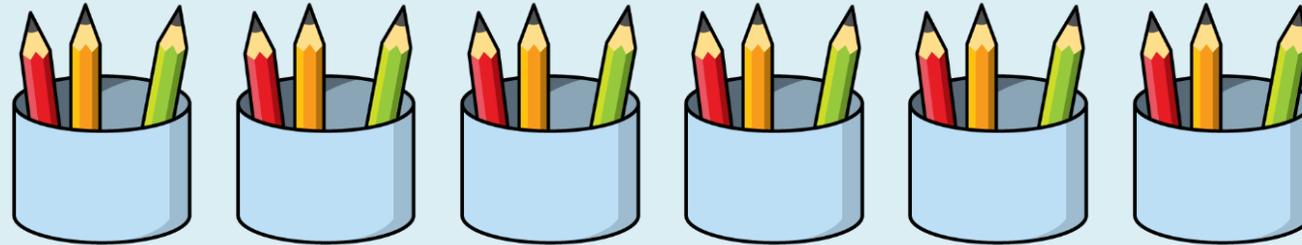

# Starter – Let's warm up our brains

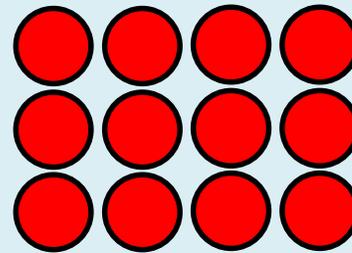

1) How many cookies?

2) How many pencils?

3) Here is an array.

How many groups of 3 are there?

Walt: multiply by 3

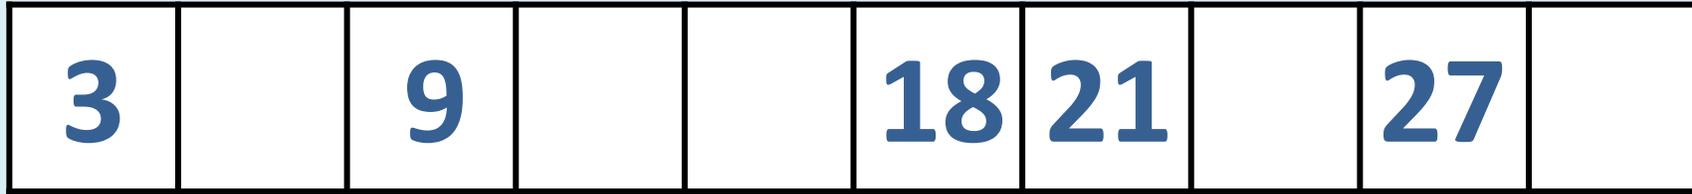

S2S: I can

- Represent groups of 3 in different ways
  - Count on in 3s
  - Multiply by 3

Let's Learn

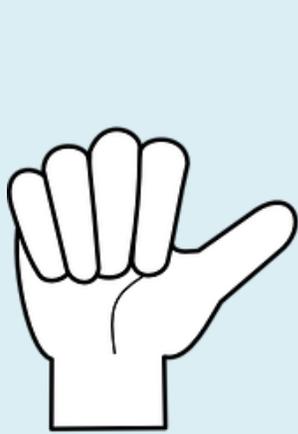

Count in 3s to complete the number tracks.

Count in threes to 30.  
What do you notice?

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
21	22	23	24	25	26	27	28	29	30

Use your fingers to help you recite  
the 3 times table to 12 x 3.

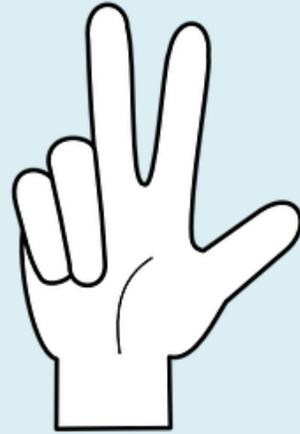

**1x3 is**

**3**

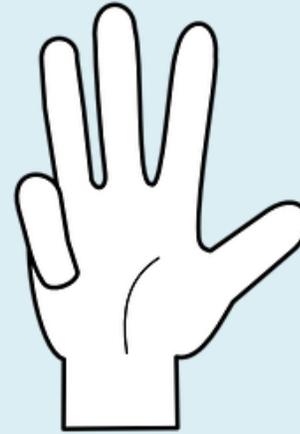

**2x3 is**

**6**

**3x3 is**

**9**

**4x3 is**

**12**

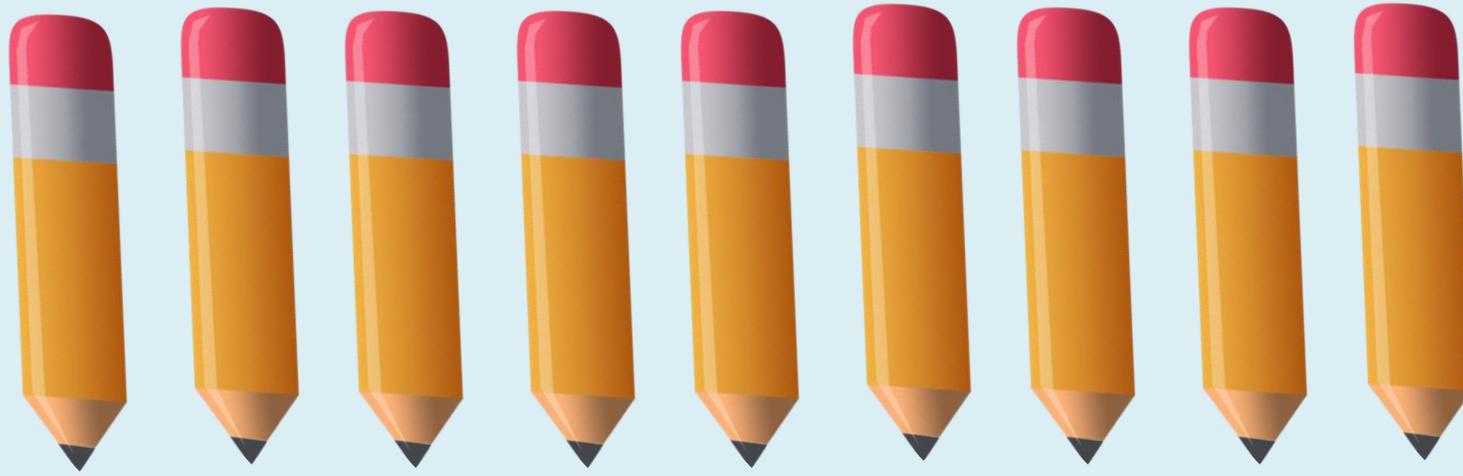

**5x3 is**

**15**

# Guided Practice

How many equal groups of 3 can you make?  
Can you write calculations?

$$3 + 3 + 3 =$$

$$3 \times 3 =$$

What do you see?

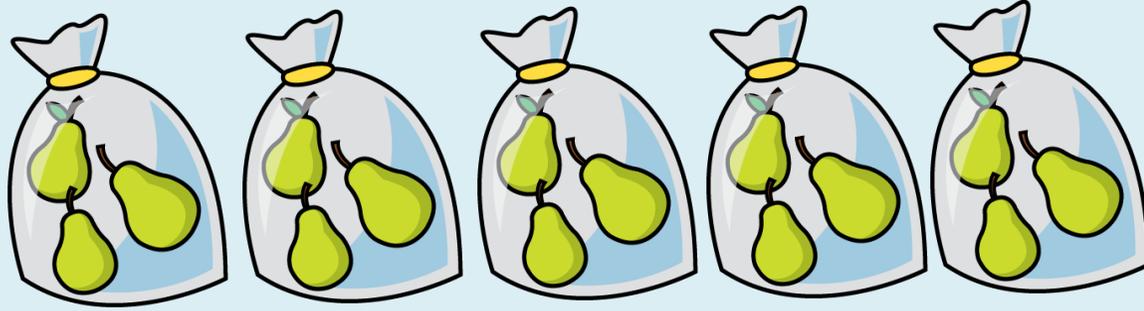

There are \_\_\_\_\_ equal groups of \_\_\_\_\_

$$\square + \square + \square = \square$$

$$\square \times \square = \square$$

What do you see?

There are \_\_\_\_\_ equal groups of \_\_\_\_\_

$$\square + \square + \square + \square + \square = \square$$

$$\square \times \square = \square$$

$$\square \times \square = \square$$

How many dots in total?  
Write a multiplication calculation.

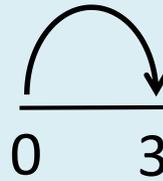

$$\underline{\quad\quad} \times \underline{\quad\quad} = \underline{\quad\quad}$$

3	6	9	12	15	18	21	24	27	30	33	36
---	---	---	----	----	----	----	----	----	----	----	----

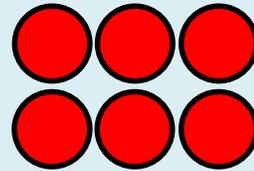

$$1 \times 3 = 3$$

$$3 \times 1 = 3$$

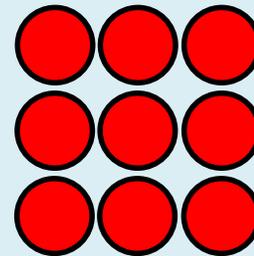

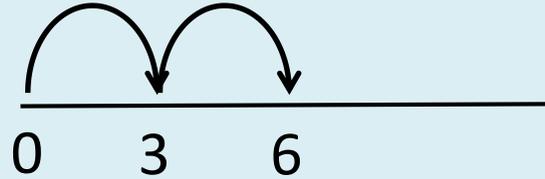

Have a think

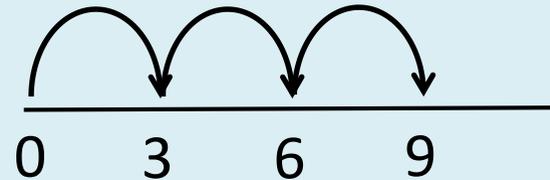

$$2 \times 3 = 6$$

$$3 \times 2 = 6$$

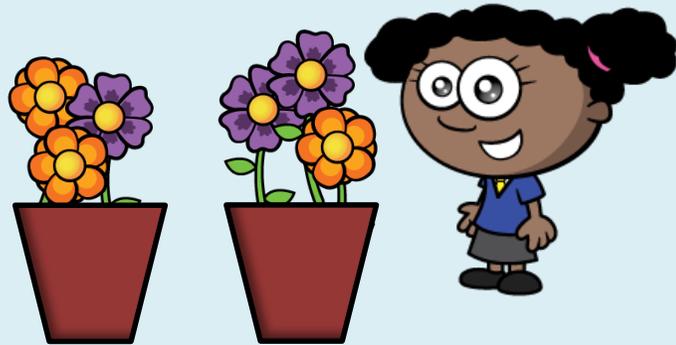

$$3 \times 3 = 9$$

$$3 \times 3 = 9$$

Which number story matches the picture?

$$2 \times 3 = 6 \quad \text{or} \quad 3 \times 2 = 6$$

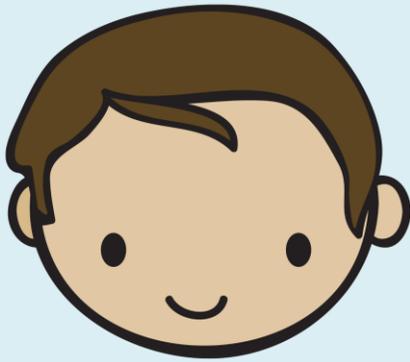

Have a think

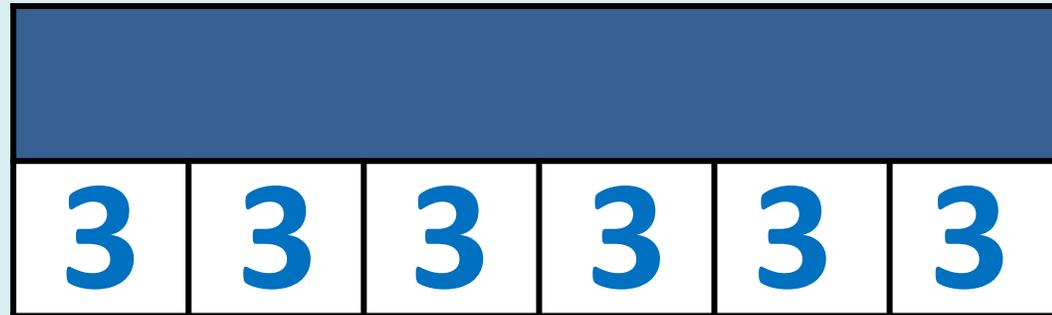

Whitney plants 2 pots of flowers with 3 flowers in each pot. She plants 6 flowers altogether.

Whitney plants 3 pots of flowers with 2 flowers in each pot. She plants 6 flowers altogether.

Use a bar model to help you.

I bought 6 packs of permanent markers. Each pack has 3 markers. How many markers do I have?

$$3 + 3 + 3 + 3 + 3 + 3 =$$

$$6 \times 3 =$$

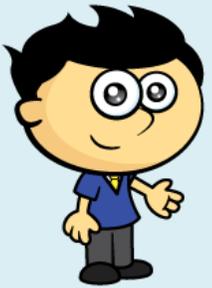

# Your turn Questions

# Problem solving

Can you draw an array to prove it?

$$12 \times 3 = 10 \times 3 + 2 \times 3$$

Is Jack correct?

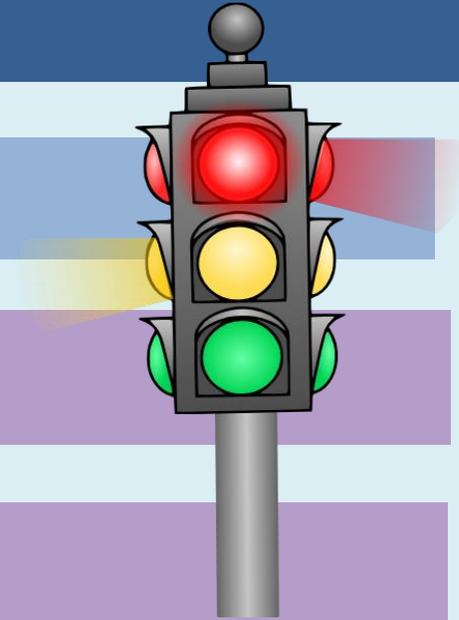

## Reflection – Traffic Lights

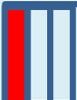

Where did I get to today?

I can now.....

I need more practice with...

I still need to learn how to .....

 ... represent groups of 3 in different ways.

 ... count on in 3s.

 ... multiply by 3.
