Maths Week 3

Lesson 3

Starter – Let's warm up our brains

1) Complete the calculations

$$3 \times 3 =$$

$$10 \times 3 =$$

$$3 \times 6 =$$

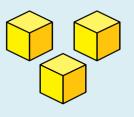

$$3 \times 11 =$$

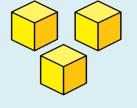

2) Circle the multiples of 3

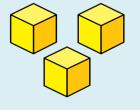

14 6 10 15 36 24

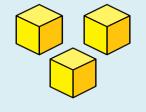

20

3) Here are some cubes.

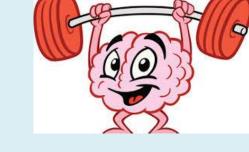

How many groups of 3 are there?

S2S: I can

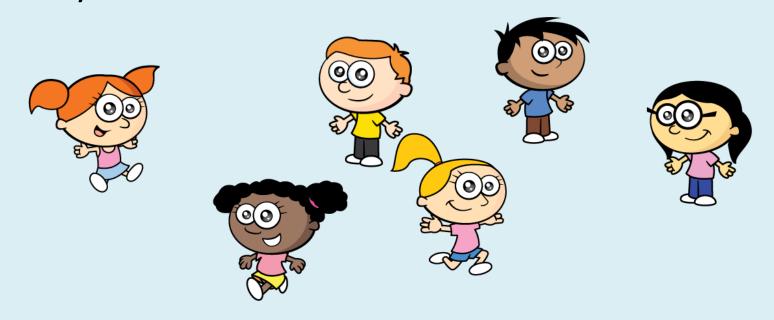

- represent groups of 3 in different ways
 - count backwards in 3s
 - divide by 3

Let's Learn

The children are playing a game.

They need to divide themselves into three teams.

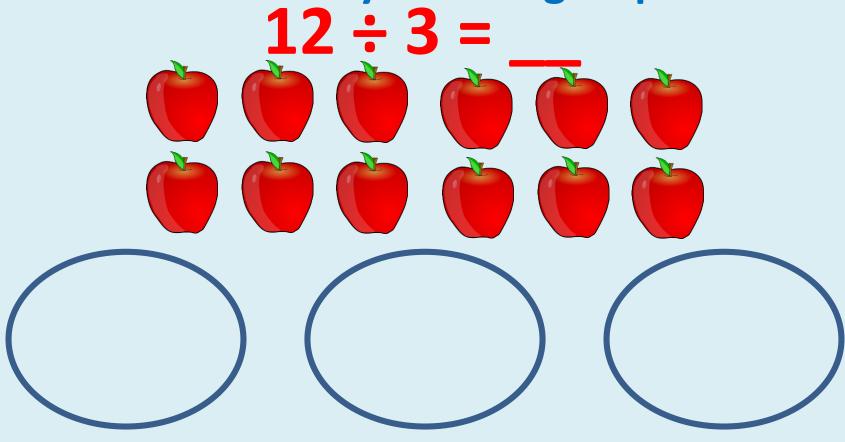

How many will be in each team?

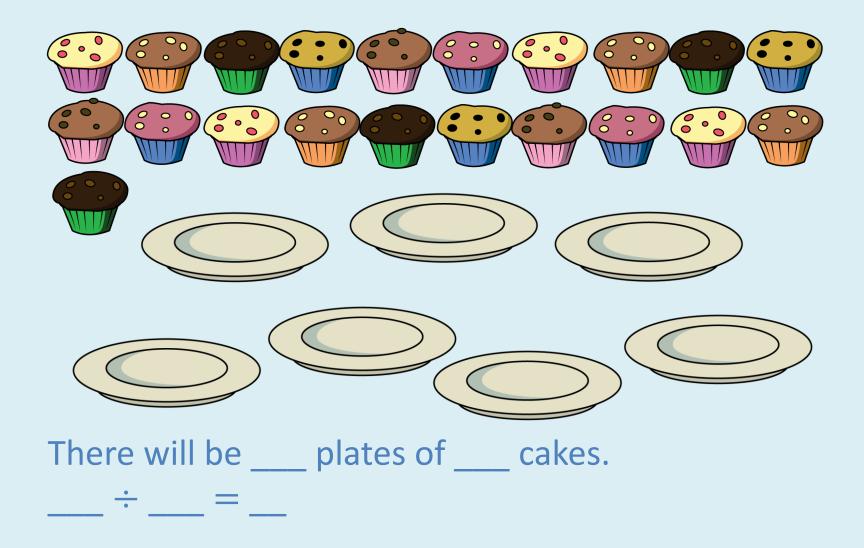

Guided Practice

Share the fruit equally into 3 groups. How many in each group?

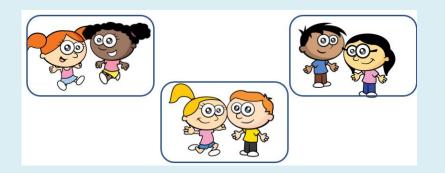

They are divided into groups of 3

$$6 \div 3 = _{--}$$

Shared into 3 equal teams

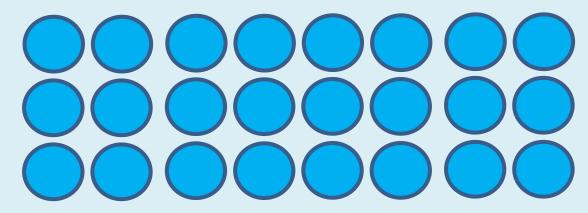

There are ____ children in each team.

Grouped into teams of 3

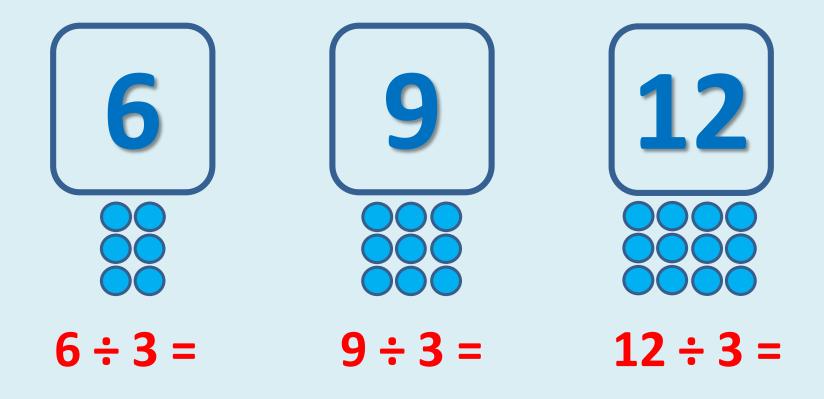

There are _____ groups of ___ children.

Make 24 with counters (or objects) and put them into columns of 3.

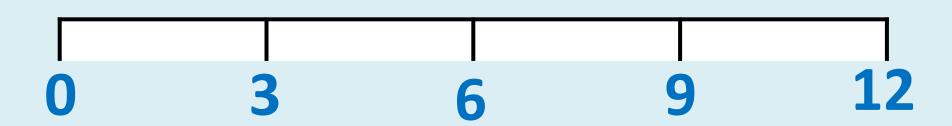

How many columns do we have? What does this tell us?

Make these numbers with counters (or objects), put them into columns of 3 and write the division fact.

Use the number line to help you solve the calculation.

Use the number line to help you solve the calculation.

$$18 \div 3 =$$

Tim has 18 muffins and shares them equally between 3 friends.

How many does each friend get?

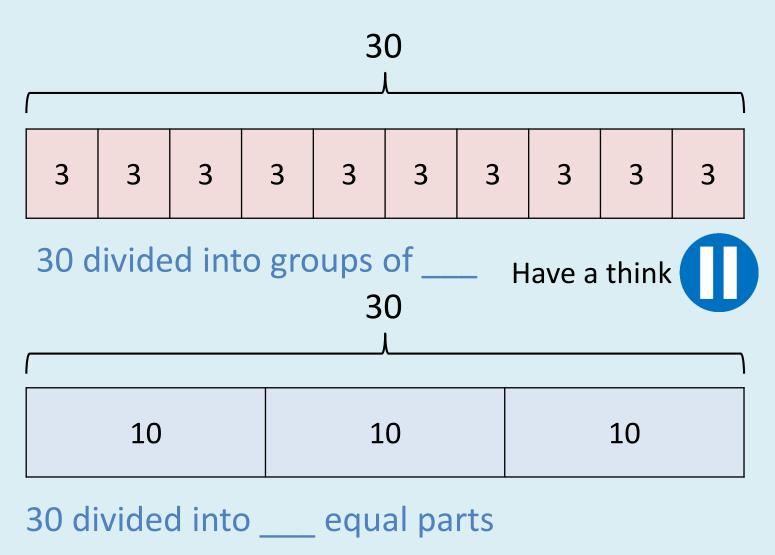

$$18 \div 3 =$$

Which bar model shows $30 \div 3$?

Your turn Questions

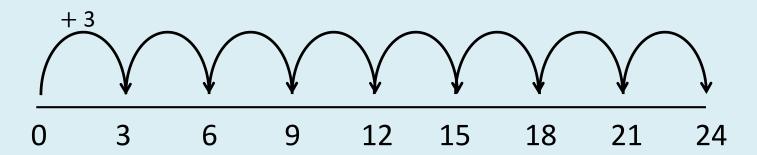

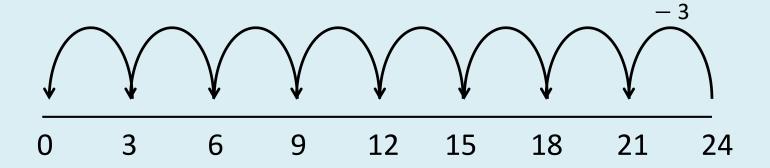

The baker has 24 tarts. He puts 3 tarts into each box. How many boxes can he fill?

Problem solving

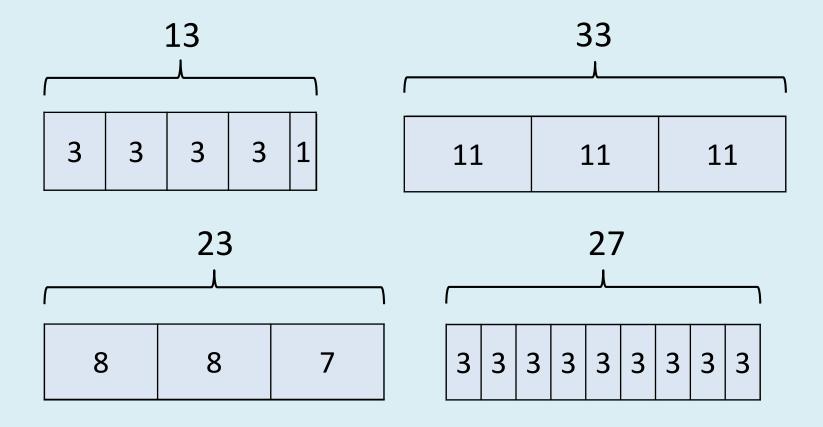

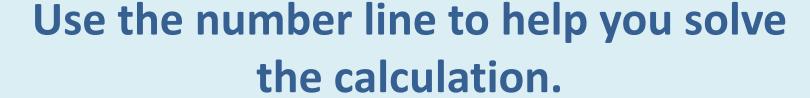

Which numbers will divide exactly by 3?

Problem solving

Have a think

$$36 \div 3 =$$

Plenary

What have you learnt today? Can you explain it to someone.
