

Nursery Learning Activities w/b 14th June 2021 Fun in the Sun!

This week we are continuing to think about summer. The children are enjoying playing with the sand and water, suitcases and holiday clothes.

As the weather gets hotter please can you ensure the children have a hat in school. Thank you!

Part of our mindfulness activities this week will be yoga and 'Rainbow breathing'.

<https://www.youtube.com/watch?v=OhvwLdk5D5g>

This is a great video for learning the most commonly used children's yoga poses.

<https://www.youtube.com/watch?v=llbBI-BT9c4>

This is a link to practise 'rainbow breathing' at home.

Phonics:

- Play 'What's in the box?' initial sound game. Need summer themed items: sunglasses, hat, kite, flower. Add to box. Say the initial sound of an object for the children to guess.
- Play a clapping syllables game by asking the children to clap to syllables in summer themed words

PSED

- The children could talk about their favourite summer activities they do at home.

Maths: First, Then, Now addition stories: Encourage children to explore the concept of addition practically, using objects which can be moved and counted. Ask children to roll a dice, collect some of the real shells, then roll the dice again to add more shells. The children are then encouraged to think about how many shells they have now.
