

Maths

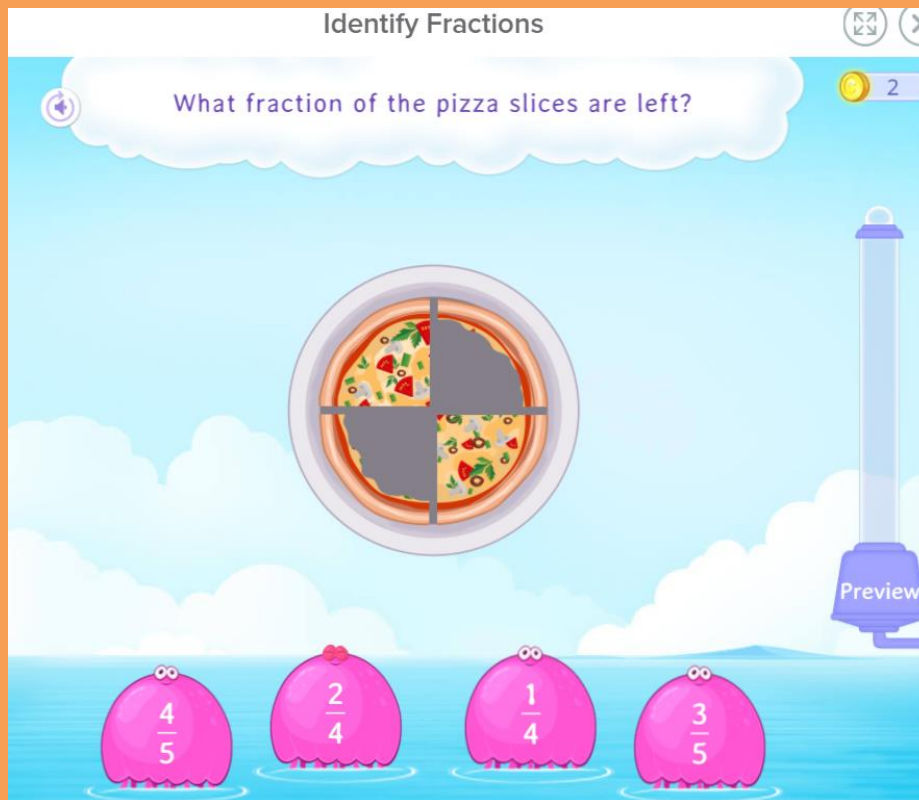

Term 6 Week 3

Session 1

Starter

- Identify fractions

<https://uk.splashlearn.com/fraction-games>

WALT

WALT use the inverse to add

S25

I can

explain what inverse is

write the corresponding subtraction for an addition calculation

In focus

What does inverse mean?

For example...

You could say that **messy** is the **inverse** of a **clean** (they are opposites and “undo” each other).

Addition is the inverse of subtraction.

Subtraction is the inverse of addition.

The two operations undo each other.

Let's Add

4

1

5

$$4 + 1 = 5$$

And is the same as

$$1 + 4 = 5$$

The inverse is

$$5 - 1 = 4$$

$$5 - 4 = 1$$

Whiteboards

1. $7 + 6 =$

2. $14 + 12 =$

3. $22 + 8 =$

4. $35 + 15 =$

Have a go at these –
write the 2
corresponding
subtraction - inverse

Let's learn

- $36 + 43 =$

- $25 + 64 =$

- $52 + 27 =$

Guided practice

1

$$\begin{array}{r} 31 \\ + 45 \\ \hline \\ \hline \end{array} \quad \begin{array}{r} - \\ \hline \\ \hline \end{array}$$

2

$$\begin{array}{r} 18 \\ + 71 \\ \hline \\ \hline \end{array} \quad \begin{array}{r} - \\ \hline \\ \hline \end{array}$$
